

*Ring Sizing Chart*

This ring sizing chart is intended to help you obtain an estimate of the size of a ring, but for the greatest accuracy, please have a ring or your finger measured by a member of the Ingle & Rhode team.

Instructions

1. Print at 100%. Make sure you do not select the 'scale to fit page' or 'shrink to fit page' options.

2. Check print size.

This line should measure 10cm 

3. Place the ring over the circles below. Ideally, the ring should be of a similar width and style to the one you wish to purchase.

4. The ring's size corresponds approximately to the letter in the smallest circle that completely fills the inside of the ring.
